

Stay safe this summer

Summer is time for outdoor fun with friends and family - don't let **COVID-19** get in the way.

The vaccine is like a life vest!

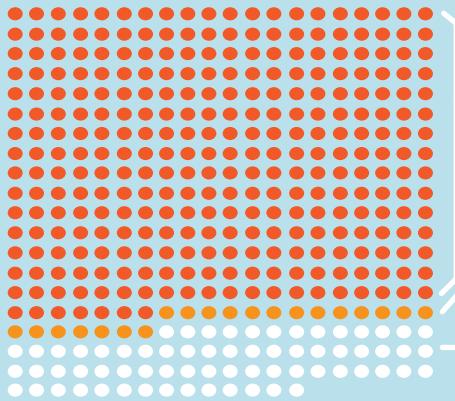

A life vest won't prevent you from falling into the water, **but it will help you float if you do fall in.**

It's still possible for vaccinated people to get COVID-19, but people who get the shots **get much less sick and feel better faster.**

People who are vaccinated are much less likely to end up in the hospital from COVID-19.

Of 394 people admitted to Lake Regional Hospital between June and December 2021 for severe COVID-19 illness:

Almost 8 out of 10 (78%)
were not vaccinated at all

Less than 1 out of 10 (5%)
only had 1 out of 2 shots

About 1 out of 10 (12%)
were fully vaccinated

Ready for the vaccine?

Get your FREE COVID-19 vaccination or booster - no appointment needed!

Who: anyone age 18+

When: every Thursday, 9 a.m. - noon

Where: any of COMC's three clinic locations:

Richland Medical Center
